

# R. Todd Stephens

## IT Professional and Information Architect

### CONTACT INFORMATION:

(678) 262-7293

todd@rtodd.com

210 Harris Road, Fayetteville, GA 30215

### EMPLOYMENT HISTORY

#### 1997-Present

##### Senior Technical Architect

##### AT&T Corporation

##### Atlanta, Georgia

Joining Cingular in 1997, I started my telecommunications career focusing on the billing applications and deployment across twenty plus environments. Later, I moved to BellSouth (1999) to lead the Data Architecture and Enterprise Metadata program which resulted in two industry awards and several hundred publications. Our group expanded beyond metadata to include collaboration, intranet presence, search, and online ordering. After joining AT&T (2007), we focused on collaborative technologies and fundamentally changed the culture of the organization. Today, my time is split between desktop architecture and communication efforts on some of the most critical information technology programs in the business. Areas of focus include:

- Collaborative Technology and Social Media
- Data, Desktop and Application Architecture
- Enterprise Architecture
- Enterprise Metadata and Repository Services

#### Other Roles and Employers (1983 - 1997)

Lead Analyst; Georgia Pacific Company  
Senior Systems Technologist; The Coca-Cola Company  
Assistant MIS Manager; Southern Linen  
Senior Programmer Analyst; Fannie Mae Software  
Senior Programmer Analyst; Lummus Industries  
Assistant Vice President; The Georgia Company  
Adjunct Professor; LaGrange College
